

To our resellers and customers

Åbyhøj 17 January 2018

We wish you all a happy, healthy and successful New Year!

For many years now we have managed to keep our prices the same. Unfortunately this is no longer possible.

The price of raw materials has increased in general, which has forced us to increase our prices.

The price rise is 3% and applies from 1 February 2018.

However, goods ordered by 16 February will remain at the old price.

We look forward to a continued and successful collaboration!

Kind regards

Fog Agroteknik A/S
